

PROPHETIC WORD

May 2023

by Prophetess Monica Ollivierre

On April 28, 2023, as I was seeking God for what He has in store for the Hope Aglow family in May, God immediately dropped this into my spirit.

"Grace. A supernatural grace will be on the month of May. A supernatural grace that will bring Divine connections, contracts, and openings. A grace to accomplish that which you have been unable to accomplish in the preceding four months of 2023. A supernatural grace for recovery. A supernatural grace for increase.

Instead of toiling as Peter did with doing that which was natural, you will receive a grace for net breaking catches. A grace for supernatural increase. Just like Peter in the book of Acts he preached once and 3,000 were added to the church in one day. This is a supernatural grace of increase for you individually and Hope Aglow corporately.

Listen for My instructions. Listen for where and how to let down your nets for the catch. No more toiling. For grace will meet you in the month of May. Grace for forward movement. Grace for driving out the enemy from your promised land. Grace to occupy. Grace is being poured unto you in the month of May. Look for it. Expect it and walk in My grace for you in May. It will propel you forward and accelerate the rest of your 2023.

Grab ahold of My grace in the month of May and squeeze every benefit from it. Be on the lookout for grace instructions while you are awake and in dreams, visions and trances. Much like Jacob when I gave him a dream about what to do to get speckled cows (for his back pay), I am releasing grace strategies and methods to you that when you obey every spiritual Laban that has limited you for years will have to let you go.

Through My grace in May you will break out, break forth, spread out and enlarge. The place that you have dwelled is too small. It is time for you to increase by My grace. Not by might, not by power, but by My Spirit administering grace unto you.

Grace, upon grace, upon grace - supernatural grace awaits you in the month of May. Take full advantage of it My beloved. Spare not. Don't hold back. Step into My grace and soar in the month of May.
